Summary

- Proficient in **MongoDB**, **Express.js**, **React.js**, **Next.js**, and **Node.js** for full-stack web development.
- Experienced in building dynamic, responsive, and user-friendly web applications.
- Skilled in using **Zod** for schema validation and ensuring data integrity.
- Strong understanding of **RESTful APIs**, authentication mechanisms, and database management.

Technical Skills

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript, TypeScript
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication
Database: MongoDB
Validation: Zod
Development & Collaboration Tools: Git & GitHub, Postman, n8n (self-hosted)

Education

Savitribai Phule Pune University   Jan 2021– Jul 2024
Bachelor of Engineering (Computer Science)– CGPA:7.27   *Nashik, Maharashtra*

Intership Experience

Engineer's Cradle   May 2025 – Nov 2025
Software Developer Intern

- Working on developing web applications using Next.js and TypeScript for scalable and efficient code.
- Using Storybook for component testing and building reusable UI components.
- Implementing data fetching and state management using React Query.
- Applying Zod for robust data validation in forms and API responses.
- Collaborating with the team using Git for version control and efficient workflow management.

NP IT Solution   Jan 2023 – Feb 2023
Web Designing Intern

- Assisted in designing and developing responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Created user-friendly UI/UX designs to enhance website functionality and appearance.
- Ensured cross-browser compatibility and mobile responsiveness.
- Worked with Adobe Photoshop to create website banners.

Projects

Student Manager | *HTML, CSS, BootStrap,React.js,JSON Server*   **Live-student-manager-pi.vercel.app/**

- Developed a React.js-based Student Management System with full CRUD functionality using JSON Server as a mock backend.
- Implemented Create, Read, Update, and Delete (CRUD) operations to manage student records dynamically.
- Integrated Axios for handling API requests to interact with JSON Server.

Expense Tracker App | *HTML, CSS,BootStrap,MERN*   **Github-github.com/MrPandit12345/ExpenseTracker/**

- Developed a full-stack Expense Tracker application using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- The app allows users to add, categorize, and track income & expenses with a user-friendly dashboard.
- Implemented JWT-based authentication, category-wise filtering, and real-time transaction updates.
- Ensured responsive UI, RESTful API integration, and secure data handling.

Task Manager with n8n Email Automation | *React.js, Node.js*   **Github-MrPandit12345/task_automation_FE/**

- Developed a full-stack task management application using MERN stack with CRUD operations for tasks.
- Integrated n8n self-hosted workflow to automate email notifications when a task is marked as completed.
- Configured Zoho SMTP in n8n to securely send emails without relying on OAuth or third-party APIs.
- Designed a Webhook → Set → Email automation workflow to format task data and trigger notifications.
- Implemented backend-to-automation integration, allowing the Node.js backend to trigger workflows dynamically.

Certifications

- Certified Full stack web-development – Udemy
- Certified MERN Stack Developer – ITpreneur
